

Travel Screening BPA during Sign-In and Check-In

A new travel screening questionnaire will now fire upon completing Sign-In or Check-In. Based on answers received, a Best Practice Advisory will pop-up letting the registrar know if there are more actions that need to be taken.

Try It Out

1. Access the Appt Desk or DAR.
2. Highlight desired appointment and click on **Check In**.
3. The **Travel Screening** window will pop up, answer the questions to complete it.

Travel Screening

Communicable Disease Screening

Have you been in contact with someone who was sick?

ⓘ No Documented Travel
 You can use the box to the upper left to add a trip to the list

No more travel to load

☒ Accept
 ☐ Cancel

4. Based upon answers received, registrars can be prompted with a BPA window.

- The following BPA will fire within an outpatient encounter for a patient that has reported recent international travel and has the following symptoms: cough, fever, vomiting or diarrhea.
- Once you have followed the instructions on the BPA, select the Acknowledge Reason and click Accept to move on to your normal workflow.

Note: This BPA will only fire for non-clinicians in outpatient encounters.
