

Elevating the ER Experience
is our priority in 2025

The Miriam Hospital Women's Association
Equipped for Exceptional Care

This year, The Miriam Hospital Women's Association has a one-time, unique opportunity to contribute to The Miriam Hospital Centennial Campaign, while continuing our priority of funding 'Equipped for Exceptional Care'. We very much appreciate your past generosity.

Your gift will support "*Elevating the ER Experience*" by funding a Stretcher Holding Bay for the redesigned Emergency Department. The new stretcher holding bays will allow for increased comfort, privacy and confidentiality, better accommodate technology and equipment, and offer improved infection control. Your gift will ensure ongoing excellence for generations to come.

Importantly, to ensure we reach our goal, your gift to the campaign will be matched by funds from The Miriam Hospital Women's Association budget. TMHWA will be recognized on a plaque for our contribution to patient care and well-being in the ER.

The Miriam Hospital Women's Association
needs your support and generosity to
fund the

Stretcher Holding Bay

for the new Emergency Department.

Please consider donating as generously
as possible.

A check to fund this worthy project
will be presented to The Miriam at the
128th TMHWA Annual Meeting
