

When Addiction and Mental Health Collide, We Can Help

Empower your recovery through the **100% virtual**
Co-occurring Disorders Track
at the Brown University Health Partial Hospital Program
Serving adults in RI and MA.

Adult Psychiatry &
Behavioral Health

BROWN
UNIVERSITY
Health

Program Highlights

- Integrated, evidenced-based treatment for co-occurring addiction and mental health concerns
- Skill building for managing triggers, urges, and intense emotions
- Recovery-focused care: relapse prevention, harm reduction, and personal growth
- Supportive peer connection in a group setting
- Structured daily programming for accountability and stabilization

What to Expect:

- Monday through Friday, 8 a.m. - 2 p.m.
- Daily therapy, psychiatric care, and group sessions
- Individualized treatment and aftercare planning
- Collaborative goal setting and care coordination
- Inclusive and affirming care

Who is This Program For?

We help people who:

- Are experiencing both mental health challenges and addiction or related behaviors
- Identify substance use, gambling, or other compulsive behaviors as a treatment focus
- Are interested in understanding the relationship between addiction and mental health
