

Refer with Confidence

Brown University Health Medical Imaging

High-quality imaging. Seamless access. Less work for your team.

When you refer patients within the Brown University Health system, you're choosing a medical imaging partner designed to make care easier—for you and your patients.

Why Refer to Brown University Health Medical Imaging?

We're Built for Physician & Patient Convenience

- **Free, on-site parking** at imaging locations
- **Convenient hours, including evening and weekend hours** to accommodate busy schedules
- **Same day** availability for qualifying patients
- **Multiple locations across the system** for easy access
- **Streamlined scheduling** to reduce delays and missed appointments
- **Continuity of care for your patients** with the ability to view results in LifeChart and quickly address any follow-up care needed
- **Self-scheduling capabilities** for patients utilizing MyChart for Mammography, DEXA and Ultrasound. CT self-scheduling will be activated Spring 2026
- **One scheduling phone number: 401-444-7770**

We Handle the Administrative Heavy Lifting

Our dedicated imaging business office supports your practice by:

- Managing **prior authorizations**
- Coordinating **scheduling across modalities**
- Communicating directly with patients to ensure readiness
- **Arranging transportation** when needed, including services like RoundTrip

This means fewer phone calls, less follow-up, and more time for patient care.

**Call for an appointment:
401-444-7770**

Trusted Imaging Within the System

- Advanced imaging technology supported by experienced teams
- Consistent quality and protocols aligned with Brown University Health standards
- Timely, reliable results that support informed clinical decisions
- Close loop communication between referring provider and Diagnostic Imaging

A Better Experience for Everyone

Referring within Brown University Health keeps care connected, reduces friction for patients, and supports continuity across the system—without adding complexity to your workflow.
